## WORK READY SKILLS INCLUDE JOB HEALTH AND SAFETY SKILLS!

- **Learn how to teach 21st Century health and safety critical thinking skills using fun, participatory activities, with the [Youth @ Work: Talking Safety curriculum](#) available from the National Institute for Occupational Safety and Health (NIOSH) (NOCTI badge available).**
- **Learn about tools to help ensure that external field placements meet safety and health responsibilities to keep student learners safe.**

**Safety in the Workplace needs to be addressed by all work-based learning programs including CTE pathway courses. The State Superintendent's Career Ready Initiative, the Anchor Standards in the California CTE Model Curriculum Standards, and the Eleven Elements of High-Quality Work-Based Learning all direct teachers to cover this topic.**
