CTE/ROP Department
1318 E. Shaw Avenue, Suite 400
Fresno, CA 93710

REGISTER HERE

<http://youngworkers.org/teacher-training/>

Certificate
available upon
completion!

WORK READY SKILLS INCLUDE JOB HEALTH AND SAFETY SKILLS!

- Learn how to teach 21st Century health and safety critical thinking skills using fun, participatory activities, with the **Youth @ Work: Talking Safety curriculum** available from the National Institute for Occupational Safety and Health (NIOSH) (NOCTI badge available).
- Learn about tools to help ensure that external field placements meet safety and health responsibilities to keep student learners safe.

Safety in the Workplace needs to be addressed by all work-based learning programs including CTE pathway courses. The State Superintendent's Career Ready Initiative, the Anchor Standards in the California CTE Model Curriculum Standards, and the Eleven Elements of High-Quality Work-Based Learning all direct teachers to cover this topic.

FOR MORE INFORMATION: Kelsie Scruggs, kscrug@berkeley.edu

This workshop is brought to you by the California Department of Education (CDE), UC Berkeley's Labor Occupational Health Program (LOHP), and the Fresno County Superintendent of Schools.
